A number of the boys are thinking of organizing a military company here in the near future. While we see no real good such an organization could accomplish it is an innocent and harmless diversion for the young men and boys and as such can be commended especially in a town that has so few amusements to offer. Mr. F. M. Coulter, himself a gallant soldier who has seen active service, will undertake to make "sojourners" out of such "recruits" as may offer. Aspirants for wearing your Uncle Samuels blue will please leave their names with F. M. Coulter.

We are informed a Mr. Tucker of Hereford was in town this week explaining the merits of an oil burner invented by himself but as he did not call on us we are unable to give our readers any idea as to its utility.

The Editor Turns.

The youthful author pocketed his rejected verses, but he could not swallow the editor's criticism.

"Sir," said he, not without dignity, "a poet is born, not made."

"Young man," returned the editor, blandly, "it won't help your case to try to shift the blame on to your parents!"

As James Russell Lowell said: "There's a deal o' solid kicking in the meekest-looking mule."

The Lightning season will soon be here so "prepare for war in time of peace" and have your houses protected from Lightning.

A GOOD THING

German syrup is the special prescription of Dr. A. Boschee, a celebrated German physician, and is acknowledged to be one of the most fortunate discoveries in medicine. It quickly cures coughs, colds and all lung troubles of the severest nature, removing as it does, the cause of the affection and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years, giving satisfaction in every case, which its increasing sale every season confirms. Two million bottles sold annually. Boschee's German syrup was introduced in the United States in 1886 and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary cough. For sale by Hadley, the leading druggist.
